Without excellence, of course, there would be no civilization, no progress, no joy; and Agnes was surprised that this sharp bur of her father's philosophy had stuck deep in her subconscious, pricking and worrying her unnecessarily. She'd thought that she was entirely clean of his influence..Nevertheless, Junior was thrilled to hear the name Bartholomew, and to know that the boy of whom Celestina spoke was the Bartholomew of Bartholomews, the menacing presence in his unremembered dream, the threat to his fortune and future that must be eliminated..After taking a preliminary statement from Celestina, Bellini left to romance a judge out of bed and obtain a search warrant for Enoch Cain's residence, having already ordered a stakeout of the Russian Hill apartment. Celestina's description of her assailant was a perfect match for Cain. Furthermore, the suspect's Mercedes had been abandoned at her place. Bellini sounded confident that they would find and arrest the man soon..Just as Celestina snapped shut the latches on the suitcase and turned to the door, a nurse's aide entered, pushing a cart loaded with towels and bed linens..As he edged closer, to better hear the conversation, he became aware of someone staring at him. He looked up into anthracite eyes, into a gaze as sharp as that of any bird, set in the lean face of a thirty something man thinner than a winter-starved crow..The Bright Beach Library was open until nine on Friday evening. Arriving an hour before closing, they returned the Heinlein novels that Barty had already read and checked out the three that he wanted. In a spirit of optimism, they borrowed a fourth, Podkayne of Mars..He felt so happy, he was improving every day in every way, life just got better-but then something happened that was worse than the shooting. It ruined his day, his week, the rest of his year..He feared that suicide was a ticket to Hell, and he knew that sinless Perri was not waiting for him in those lower realms..Barty paced off the downstairs hallway to the kitchen, thinking about Dr. Jekyll and the hideous Mr. Hyde..He had met her in a university adult-extension course titled "Increasing Self-Esteem Through Controlled Screaming." Participants were taught to identify harmful repressed emotions and dissipate them through the authentic vocal imitations of a variety of animals..Before he could replay the memory for further contemplation, Junior saw Ichabod exiting the house. The man returned to the Buick, seeming to float through the mist, like a phantom on a moor. He started the engine, quickly hung a U-turn in the street, and drove uphill to the house from which he had earlier collected Bartholomew..Junior's body betrayed him as before, and also in new ways that terrified and humiliated him, involving every bodily fluid except cerebrospinal. For a while, inside that rocking ambulance, he wished that he were in a gondola upon the waters of the Styx, his misery at an end..Neddy possessed all the musical talent, but Junior had the muscle. Pinned against the wall, his throat in the vise of Junior's hands, Neddy needed a miracle if he were ever again to sweep another glissando from a keyboard..Maria stopped praying with her knuckle rosary and resorted to a long swallow of wine..As Obadiah lowered himself into a well-worn armchair, he said to Edom, "Son, don't I know you from somewhere?"..In reality, it had been a homely device, a mere box. In memory, it seemed ominous, charged with the evil portent of a nuclear bomb..**"WOULD YOU LIKE TO BE MY BOYFRIEND?"** asked Miss Velveeta, who had thus far shown no romantic inclinations..At the end of their second date, however, Frieda invited Junior up to her apartment, to see her Lientery collection and, no doubt, to take a ride on the Cain ecstasy machine. She owned seven canvases by the painter, received as partial payment of his PR bills..He wasn't afflicted with parenthood envy. A baby was the last thing he would ever want, aside from cancer. Children were nasty little beasts. A child would be an encumbrance, a burden, not a blessing..He stood watching until the car cruised out of sight, and even after it dwindled to a speck and vanished in the distance, he stared at the point in the street where it had last been, stared while a breeze turned playful, tossing eucalyptus leaves around his feet, stared until at last he turned and began the long walk home..To the phone, the police. No dial tone. Pointless to rattle the disconnect switch. The line had been cut..But when the lore-books of a wizard came into a warlord's hands he was likely to treat them with caution, locking them away to keep them harmless or giving them to a wizard in his hire to do with as he wished. In the margins of the spells and word lists and in the endpapers of these books of lore a wizard or his prentice might record a plague, a famine, a raid, a change of masters, along with the spells worked in such events and their success or unsuccess. Such random records reveal a clear moment here and there, though all between those moments is darkness. They are like glimpses of a lighted ship far out at sea, in darkness, in the rain..**"Who else? I think there's romance in the air. The cow-eyed way he looks at her, she could knock his knees out from under him just by giving him a wink."**..He switched on his flashlight. In the beam, on the blacktop, a silver disc. Like a full moon in a night sky..Paul knelt on one knee beside her wheelchair. **"This momentous day, Agnes. This momentous day, with all of its beginnings. Hmmm?"**..They hadn't been close to Naomi, who'd once said she felt like Romulus and Remus, raised by wolves, or like Tarzan if he'd fallen into the hands of nasty gorillas. To Junior, Naomi was Cinderella, sweet and good, and he was the love-struck prince who rescued her..Parkhurst said, **"We've eliminated most other possible causes. You don't have acute myelitis or meningitis. Or anemia of the brain. No concussion. You don't have other symptoms of Meniere's disease. Tomorrow, we'll conduct some tests for possible brain tumor or lesion, but I'm confident that's not the explanation, either."**..She could have used the chair. Sitting, however, she wouldn't be able to see his face..**"You haven't had previous episodes like this?"** Parkhurst asked, standing at the bedside with a file folder in his hands, half-lens reading glasses pulled down to the tip of his nose..An affecting but difficult-to-define note in Dr. Lipscomb's voice brought Celestina slowly out of the office chair, to her feet. Perhaps it was wonder. Or fear. Or reverence. Perhaps all three..As Barty climbed to the porch without benefit of the railing and held out his right hand, Paul Damascus said, **"Tom, we're wondering if Barty can extend to you the protection he gives to Angel in the rain. Maybe he can ... since the three of you share this ... this awareness, this insight, or whatever you want to call it. But he won't know until he tries."**..In the top drawer, in addition to the expected items, Tom Vanadium found a gallery brochure for an art exhibition. In the hooded flashlight beam, the name Celestina White seemed to flare off the glossy paper as though printed in reflective ink..She also sought forgiveness for the hardness with which she had treated Nicholas Deed..A smoldering cigarette, usually dangling aslant from one corner of a hard mouth set in a cynical sneer, was standard issue for tough-guy gumshoes, but Nolly didn't smoke. His failure to develop this bad habit resulted in a less satisfyingly murky atmosphere than the clients of a private dick might expect..Whereas Paul had been confounded in his desire to express his admiration for Salk, he was able to speak about Perri at length and with ease. Her wit, her heart, her wisdom, her kindness, her beauty, her goodness, her courage were the threads in a narrative tapestry that Pad could have continued weaving for all the rest of his days. Since her death, he hadn't been able to talk about her with anyone he knew, because his friends tended to focus on him, on his suffering, when he wanted them only to understand Perri better, to realize what an exceptional person she had been. He wanted her to be remembered, after he was gone, wanted her grace and her fortitude to be

recalled and respected. She was too fine a woman to leave without a ripple in her wake, and the thought that her memory might pass away with Paul himself was anguishing. "Nicholas Deed." On her tongue, the name was as bitter as a dissolving aspirin. He stabbed Prosser, however, merely to relieve his frustration and to enliven the dull routine of a life made dreary by the tedious Bartholomew hunt and by loveless sex. In return for more excitement, he'd assumed greater risk, to mitigate risk, he must have insurance. Junior could only imagine how flattered Victoria would be to receive the attentions of a twenty-three-year-old stud, flattered and grateful. When he contemplated all the ways she could express that gratitude, there was barely enough room behind the wheel of the Suburban for him and his manhood. Undeterred, the girl said, "Not magic. But maybe I can't learn to do that one, ever." She tried to tell him that he was going to make it, that he would be with her for a long time, that the universe was not so cruel as to take him at thirty with all their lives ahead of them, but the truth was here to see, and she could not lie to him. Maria fished another chip from the sweating carafe, rejected it, and scooped out a larger piece. She hesitated, staring at it for a moment, and then spooned it between Agnes's lips. "Water can be broken if it will be first made into ice." The little hands, so weak now but someday strong: Would they eventually be capable of savagery, as were the father's hands? Misbegotten offspring. This seed of a demonic man whom Phimie herself had called sick and evil. However innocent-looking now, what pain might she eventually in-- on others? What outrages might she commit in years to come? Although Celestina searched intently, she could not glimpse the father's evil in the child. A cold wetness just above the crook of his left elbow. A sting. A tourniquet of flexible rubber tubing had been tied around his left arm, to make a vein swell more visibly, and the sting had been the prick of a hypodermic needle. Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?" As Celestina and her mother loaded the last of the pies into the ice chests in the Suburban, Paul and Agnes came back from her station wagon at the head of the caravan. Neddy, dressed for work but overdressed for his own funeral, slumped against the wall, head bowed, chin on his chest. His pale hands were splayed at his sides, as though he were trying to strike chords from the floor tiles. Perplexed by their peculiar behavior, even slightly unnerved, Tom answered Maria's question. "I'm afraid there's nothing else I can do, nothing more of a fantastic nature." Maybes are for babies, Zedd tells us in *Act Now, Think Later. Learning to Trust Your Instincts*. Polio, largely an affliction of younger children, had stricken her two weeks before her fifteenth birthday. Thirty years ago. Nolly, telling the story of his day's work, paused as the waiter delivered two orders of the crab-cake appetizer with mustard sauce. "Nolly, Mrs. Wulfstan--enjoy!". The adoption records on Seraphim White's baby weren't sealed by law, because custody of the child was being retained by family. Knacker, Hisscus, and Nork, all talking at once, then falling silent as if they were a single organism, then talking in rotation but interrupting one another, tried to advance their agenda. Summary: Explores further the magical world of Earthsea through five tales of events which occur before or after the time of the original novels, as well as an essay on the people, languages, history and magic of the place. Into Barty's darkness came light that he had not sought. He saw his smiling Mary on his lap as she lowered her hands from his temples, saw the faces of his family, the table set with Christmas decorations and many candles flickering. Bracing her feet against the floorboards, clutching the seat with her left hand, fiercely gripping the door handle with her right, she prayed, prayed that the baby would be all right, that she would live at least long enough to bring her child into this wonderful world, into this grand creation of endless and exquisite beauty, whether she herself lived past the birth or not. Spinning off the stool, he had also spun out of control. Second by second, twin storms of anger and fear whirled stronger within him. The missing paintings. The missing collection of Zedd's books. You didn't take these things with you for a weekend in Reno. You took them if you thought you might never be coming back. Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading. During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to be in no hurry to manifest itself. Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand. Alone, Junior sat in the breakfast nook with a pot of coffee and an entire Sara Lee chocolate fudge cake. Furrowing her brow and narrowing her eyes as though prepared to scold him, she slowly lowered her face to his, until their noses were touching, and she whispered, "Because it's more fun if it's secret." "Consider what I told you," Dr. Salk urged. "Your Perri would want you to think about it." The house was hers, free and clear of mortgages. There were two savings accounts to which Joey had diligently made deposits weekly through nine years of marriage. "Be quiet, sugarpie," she said, crossing the bedroom to the door, which stood only slightly ajar. "Frequently, symptoms appear early enough that radiation therapy in one or both eyes has a chance to succeed. Sometimes strabismus--in which one eye diverges from the other, either inward toward the nose or outward toward the temple--can be an early sign, though more often we're alerted when the patient reports problems with vision." "I know how to build boats, how to sail boats." "Yes," she assured him, though her gaze had dropped from his mouth to his hand, so small, which she held in hers. "Salt water would be too cumbersome anyway. He'd have to drink a lot of it shortly before he heaved, but he was surrounded by cops with good reason to keep an eye on him. Does ipecac come in capsule form?" the sentences. The substance of what she said and the tone in which she said it were so perfect that it almost seemed as though an angel had relieved her of this burden by possessing her long enough to help her son understand what must happen and why. The cop had unzipped the top of her jogging suit and pulled up the roomy T-shirt. Oblivious that she and Barty had become the center of attention, Angel said, "Does he ever get the quarters back?" These would no doubt be cloyingly sentimental paintings of the bastard boy, with impossibly large and limpid eyes, posed cutely with puppies and kittens, pictures better suited for cheap calendars than for gallery walls, and dangerous to the health of diabetics. Scamp spent Wednesday ravishing him. It wasn't love, but there was comfort in being familiar with his partner's equipment. By invoking the word emergency, Celestina was able quickly to reach her own physician in San Francisco. He agreed to treat Phimie and to have her admitted to St. Mary's upon her arrival from Oregon. "Me, I don't like anything old. This White chick's got a weird thing for old people, old buildings, old stuff in general. Like she doesn't realize she's young. You want to grab her, shake her, and say, 'Hey, let's move on,' you know?" He knew the sermon, of course. The example of Bartholomew. The theme of chain-reaction in human lives. The observation that a small kindness can inspire greater and ever-greater kindnesses of which we never learn, in lives distant both in time and space. "If I ever get there, I'll be back," she promised the gathered family. "Imagine how much we'll have to talk about. Maybe I'll even get some new pie recipes from Over There." When she closed the front door and turned away from it,

Agnes bumped her swollen belly into Joey. His eyebrows shot up, and he put his hands on her distended abdomen, as if she were more fragile than a robin's egg and more valuable than one by Faberge..A new quarry, operated by the same company, lay a mile farther north. This was the old one, abandoned after decades of cutting..Her metal hands were still crossed defensively over her breasts. The artist had welded large hexagonal nuts to her rake-tine fingers to suggest knuckles, and balanced on one nut was a fourth quarter.
