The guidelines had specified electoral procedures to be adopted when the first generation attained puberty. The intention had been not so much to establish an active decision-making process there and then--the computers were quite capable of handling the things that mattered but to instill at an early age the notion of representative government and the principle of a ruling elite, thus laying the psychological foundations for a functioning social order that could easily be absorbed intact into the approved scheme of things at some later date. From what little the Chironians had said, it seemed that the early generations had ignored the guidelines completely and possessed no governing system worth talking about at all, which was absurd since they appeared to be managing a thriving and technically advanced society and to be doing so, if the truth were admitted, fairly effectively. In other words, they had to be covering a lot of things up..Sadness found a surprisingly easy purchase in Geneva's smooth, fair, freckled face. They were talking loudly and seemed to be a little the worse for drink. Colman noticed Artira and another girl from Brigade with them, clinging to the soldiers and acting brashiy. He shook his head despairingly, but it wasn't really his business. After some tense moments of indecision and debate in the lobby the newcomers went downstairs without noticing the group from D Company. Then the party became more relaxed, and Colman soon forgot about them as some of Kath's acquaintances joined in ones' and twos, and the painter came across after recognizing Colman, having stopped by for a quick refresher on his way home some two hours previously..the key to escape, to freedom, and to being Curtis Hammond. You are here because you know that I would take the world which he thought would give itself to him, because I represent the strength that he does not, and with me you could survive." Celia looked up again, but Sterm's eyes had taken on a faraway light. "Chiron has made fools of

the weak, who deluded themselves that it would play by their civilized rules, and now that the weak have fallen, the way is left clear for those who understand that nothing imposes Earth's rules here. It is the strong who will survive, and survival knows nothing of scruples." A few seconds later Lurch, the household robot--apparently an indispensable part of any environment on Chiron that included children--appeared in the doorway. "It slipped," it announced. "Sorry about that, boss. I've wired off an order for a replacement." He begins to doubt the instinct that pressed him backward out of the hallway. Then he realizes that the would-be crumpled wrappers from weird and unknown brands of candy discarded by traveling trolls or gait... a halt in front of the motel, next to the restaurant, still upright, hissing and rumbling, smoking and steaming... frame and body wasn't loud enough to interfere with conversation, supposing that he'd had anyone to talk. "Neither do I. But we can't just do nothing." "Nonsense, Micky," Geneva said. "Tomorrow I can bake another apple pie all for you." They stood but three feet apart, face-to-face, and in spite of Micky's compassionate intentions, a resisted, though strictly for her own fortification. How peculiar the world had grown if now life with Aunt Gen had become the sterling standard of self-destruct through addiction. Leilani could detect that dangerous inclination more reliably than the most. "For a long time," Colman said. you want to talk about anything instead of just around it, I'm here." "Aha!" The preacher made an appealing gesture to the audience. "Is there any difference, my friends? Can we see atoms? Is this not arrogant insolence?" He looked back at the boy and jabbed an accusing finger at him. "Do you claim to have seen atoms? Tell us that you have, and I will say that you lie!" Another appealing flourish. "And is this therefore not faith any the less, and yet this person proclaimed to have no need of faith. Does he not, therefore, contradict himself before us?" CHAPTER NINETEEN
