Even from fifteen years ago... it was she--for she had come with the Mayflower H. She knew then that the Chironians were at war, and that the war would end only when they or those sent to conquer them had been eliminated. And in their first encounter, she had sensed the helplessness of her own kind. She felt it again now, as the final veil of the artist's enigma fell away and revealed, behind the fear and the trepidation, a glimpse of something more powerful and more invincible than ill the weapons of the Mayflower II combined. "Well, I didn't think it was so wonderful, and I don't want any more of it. Today I told Merrick to stuff his lob up his ass..". "Depends on your definition of child." "Anyone twelve or younger..".for interrogation, and at some later date, at his captors' leisure, riddled extensively..The Chironians would watch and wait until Only the lunatic core was left, stripped bare of its innocent protectors. Eventually only two kinds would be left: There would be Chironians, and there would be Kalenses And Colman no longer had any doubts as to which he would be..Inside, the technicians and other staff were still recovering from being invaded by armed troops and the even greater shock of seeing Wellesley, Celia Kalens, and Paul Lechat with them. They stood uncertainly among the gleaming equipment cubicles and consoles while the soldiers swiftly took up positions to cover the interior. Then Wellesley moved to the middle of the control-room floor and looked around. "Who is in charge here?" he demanded. His voice was firmer and more assured than many had heard it for a long time..needy..In the yard next door, beyond the sagging picket fence, a white-robed figure thrashed in the gloaming, as.abridged version, abusing the bed more than might have any gaggle of giddy girls at a pajama party.. I shouldn't really say too much since I've had nothing to compare it with. But it was"-she shrugged- "warm, friendly.., with lots of fun and always plenty of interesting things to find out about. I certainly don't miss not having had my head filled with some of the things a lot of Terran children seem to spend their lives trying to untangle themselves from. We got to know and respect each other for what we were good at, and different people became accepted as the leaders for different things. No

one person could be an expert in everything, so the notion of a permanent, absolute 'boss,' or whatever you'd call it, never took hold." Colman groaned to himself. Just as he was about to reply, he noticed the woman standing on the far side of the entrance, across from the gatehouse. She was wearing a beret and a light-colored raincoat with the collar turned up, and seemed to be trying to attract his attention without making herself too conspicuous. The older Chironian with them just watched over their shoulders and offered occasional suggestions. It made sense, Driscoll thought. Treat them as if they're responsible, and they act responsibly; give them bits of cheap plastic to throw around, and they act like it's cheap plastic. Or maybe the Chironians just had good insurance on their equipment.. "I can remember the one that first taught me to talk," Abdul said. "It's still operating today, up there on the Kuan-yin. But the ones you see today have changed a lot." Anita had stopped by the club theater, where a soldier who was leaning by the entrance was talking to her. She slipped an arm through his and laughed something in reply. "About as much as that." Colman said, nodding his head. "Forget it. Maybe you did me a favor." The soldier cast a nervous glance back at Colman's hefty six-foot frame, then walked away hurriedly with Anita clinging to his arm..there's no relief in even one voice among them?only shirk anxiety, urgency, wariness..
