Then she burst..The slow stiff words carried great weight..The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach.
